NBSS
National Bodo Security Service · Kokrajhar

How to use NBSS Operations

One system for the whole agency: the website, the office console and the guard's app. Find your role below. Each part is a few short steps with the real screens.

Guards
Phone app · check in, SOS

Supervisors
App and console · alerts, roster

Office & admin
Console · sites, attendance, quotes

Clients
Website or app · book, watch your site

AT A GLANCE

Who uses what

ROLE	WHERE	SIGN IN WITH	MAIN JOBS
Guard	NBSS app on the phone	Employee code `NBSS-###` + 6-digit PIN	Check in at the post, SOS, check out
Supervisor	App on the phone, console on a computer	Employee code + PIN, or a code by email	Answer SOS, post guards, approve check-ins
Office / admin	Console at `nbss.co.in/console`	Employee code + PIN, or a code by email	Sites, roster, attendance, bookings, users
Client	Website or the app	Email, then a 6-digit code by email	Book guards, see who is on duty

TIP In the console, **click any row** in a table to open its details with the actions for it: call, directions, approve, close. Long drop-down lists have a **search box** at the top.

FOR GUARDS

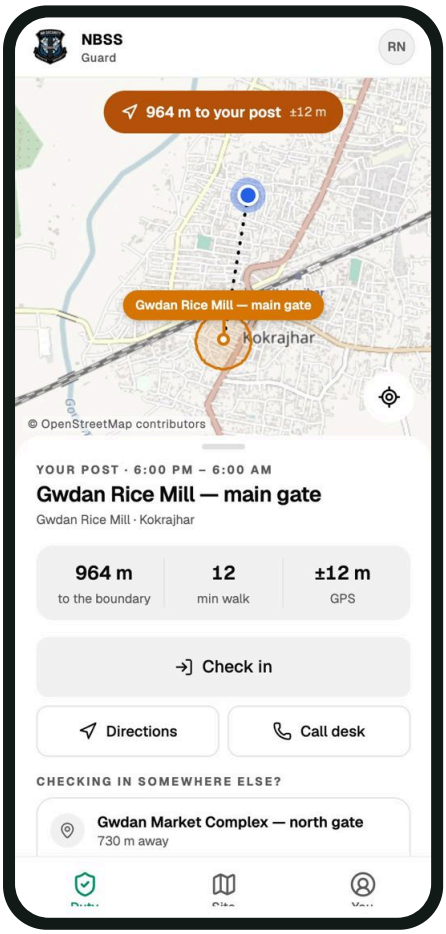

Your shift on the phone

The Duty tab is a live map: you are the blue dot, your post is the ring. Check-in only works inside the ring.

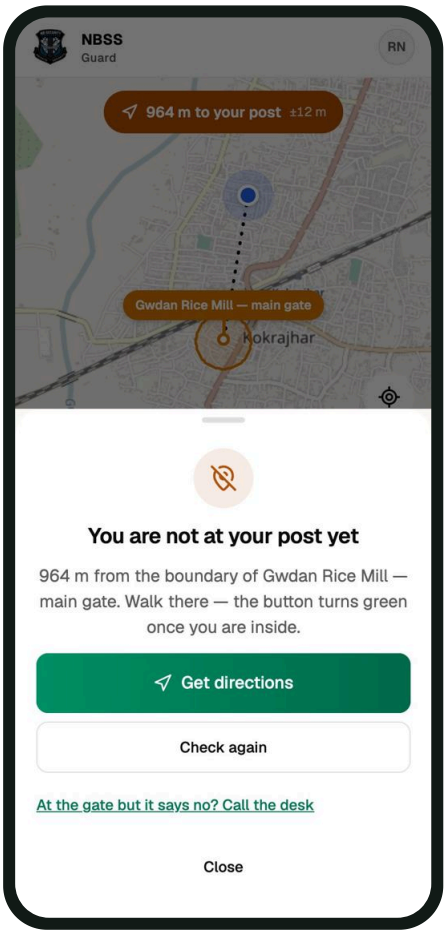

NBSS app · Duty tab

Check in

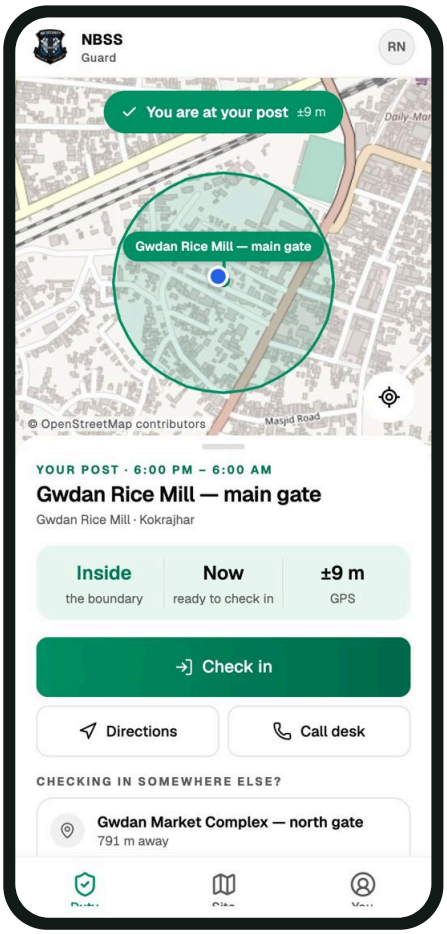

1. **Sign in**
   Your employee code and 6-digit PIN. Allow location when asked.
2. **Open Duty**
   The top pill shows the distance to your post, like `964 m to your post`.
3. **Walk to the post**
   Tap **Directions** for walking directions in Google Maps.
4. **Step inside the ring**
   It turns green: **You are at your post**. Press **Check in**.

On the way

Pressed too early

Arrived: ready

TOO FAR Pressing Check in outside the ring shows how far you are and a **Get directions** button. Nothing is recorded.

OTHER SITE Standing at a different site? You can **Check in here**. A supervisor approves it before it counts.

WEAK GPS If it says the signal is weak, step into the open for a few seconds and press **Check again**.

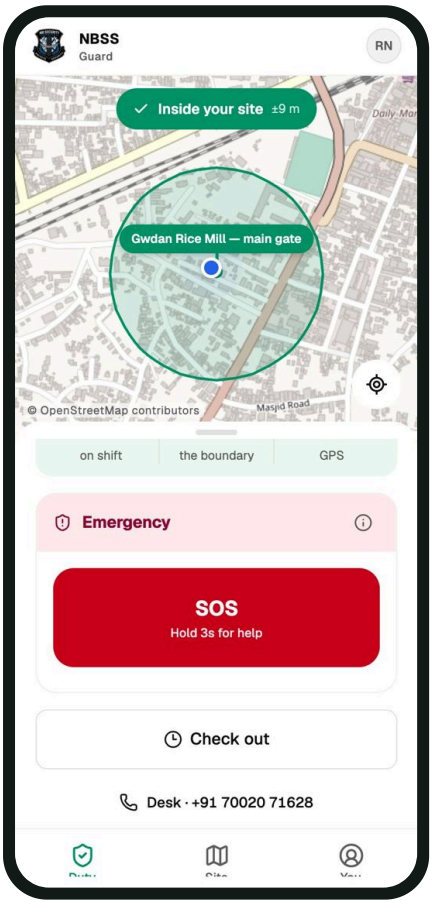

On duty, SOS and check out

1. **Keep location on "Allow all the time"**
   The control room sees you while you are on duty. It stops the moment you check out.

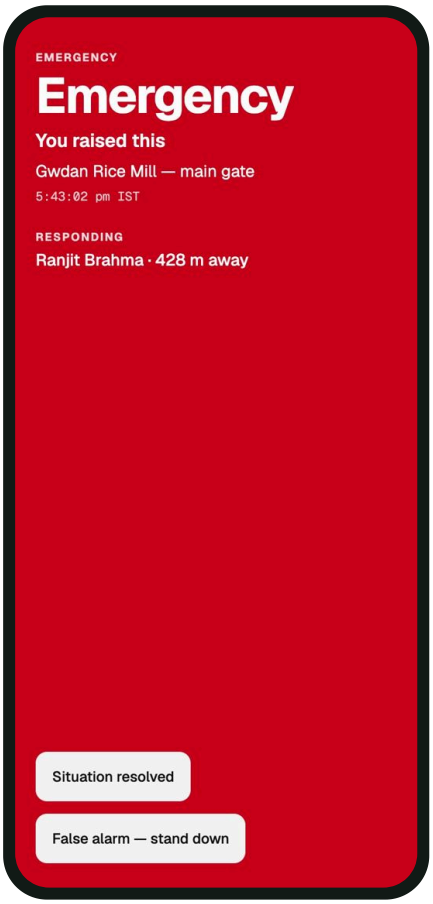

2. **Emergency: hold SOS for 3 seconds**
   The office, supervisors, guards at your site and the client are alerted at once.

3. **See who is coming**
   Your screen shows who answered and how far away they are.

4. **Check out before you leave**
   Your hours are counted from check-in to check-out.

SOS and Check out

Help is on the way

SOS A false alarm is fine. Tap **False alarm — stand down**. Never be afraid to press it.

FOR SUPERVISORS

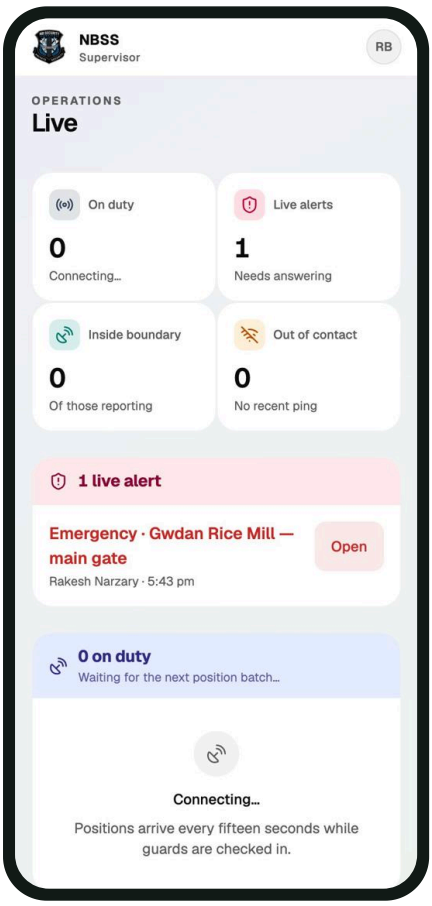

Answer alerts, fill the roster

The app's Live tab is for the field. The console's Roster is for planning.

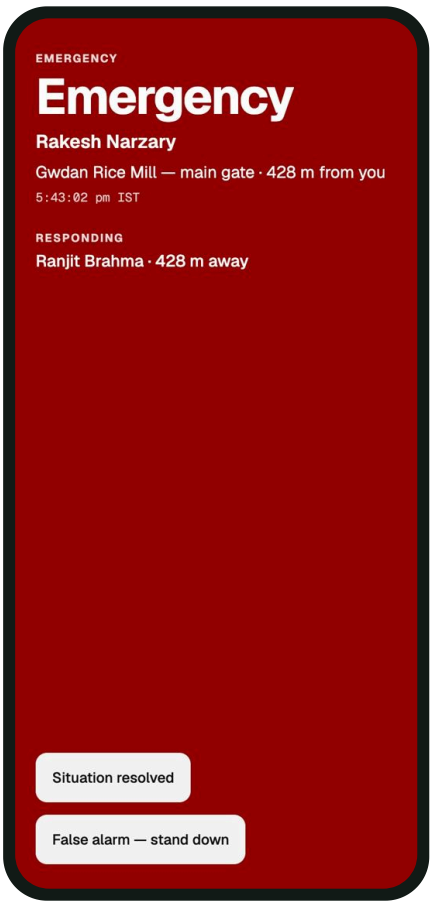

App · Live tab Console · Roster

When an SOS comes in

1. **The phone rings**
   The alert shows the guard, the site and the time. Tap **Open**.
2. **Say you are on the way**
   The guard sees your name and distance straight away.
3. **Close it**
   Mark it **Resolved** or **False alarm** when it is over. The record is kept.

Live tab: 1 alert

The alarm screen

Post guards to sites

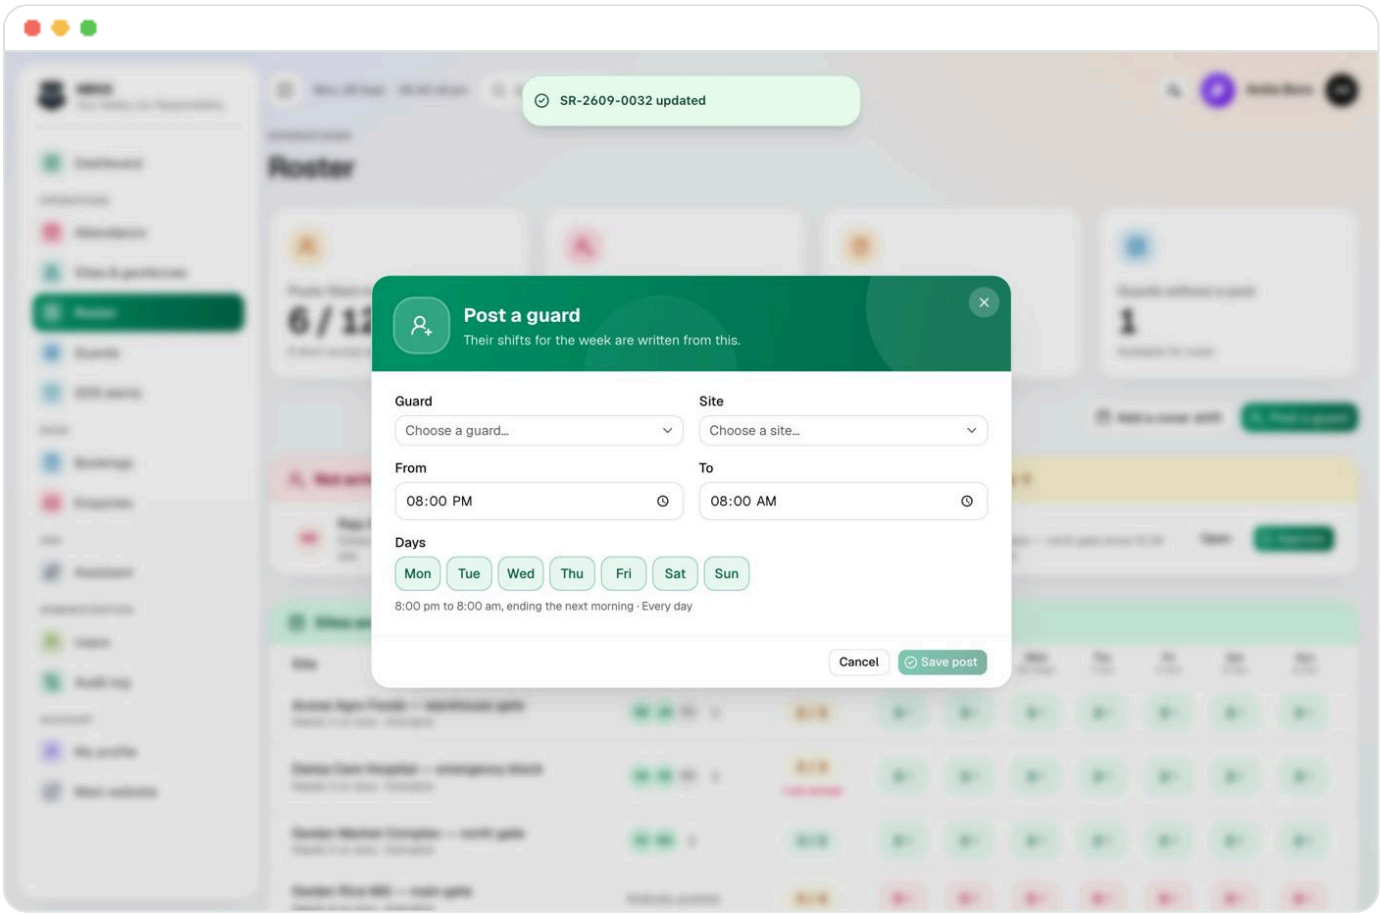

1. **Open Roster**
   Each site shows guards needed and guards on duty now.

2. **Post a guard**
   Pick the guard, the site, the hours and the days. Save.

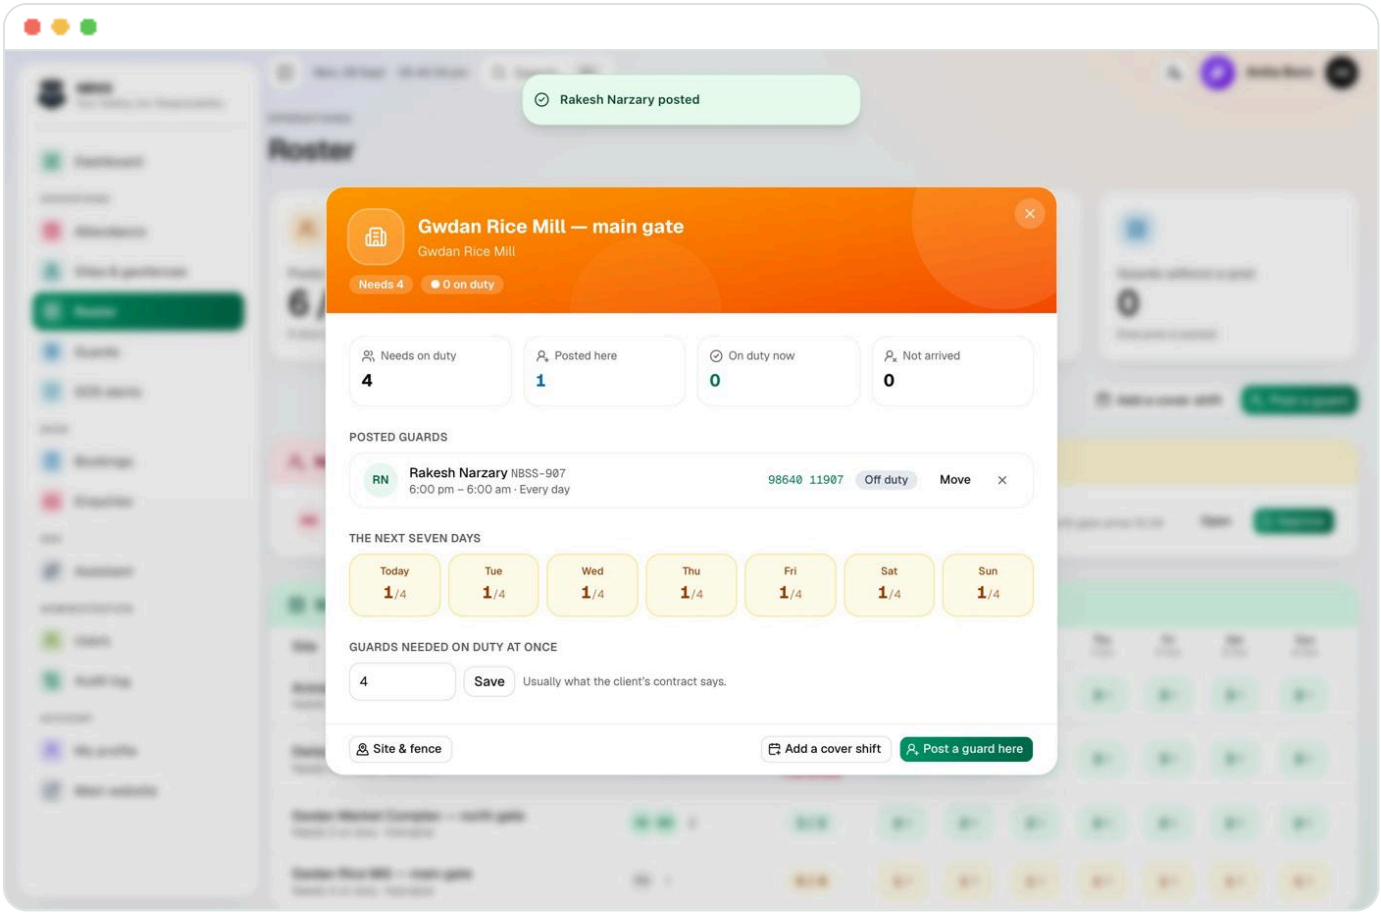

3. **The week fills itself in**
   Shifts are written for the next seven days and renewed every night.

4. **Watch for "not arrived"**
   A guard missing at shift start is flagged with their phone number.

5. **Approve off-roster check-ins**
   Check-ins at a site they weren't posted to wait for your **Approve**.

Post a guard: guard, site, hours, days

A site's roster and its next seven days

FOR THE OFFICE & ADMINS

Run the agency from the console

Everything updates live. There is no need to refresh.

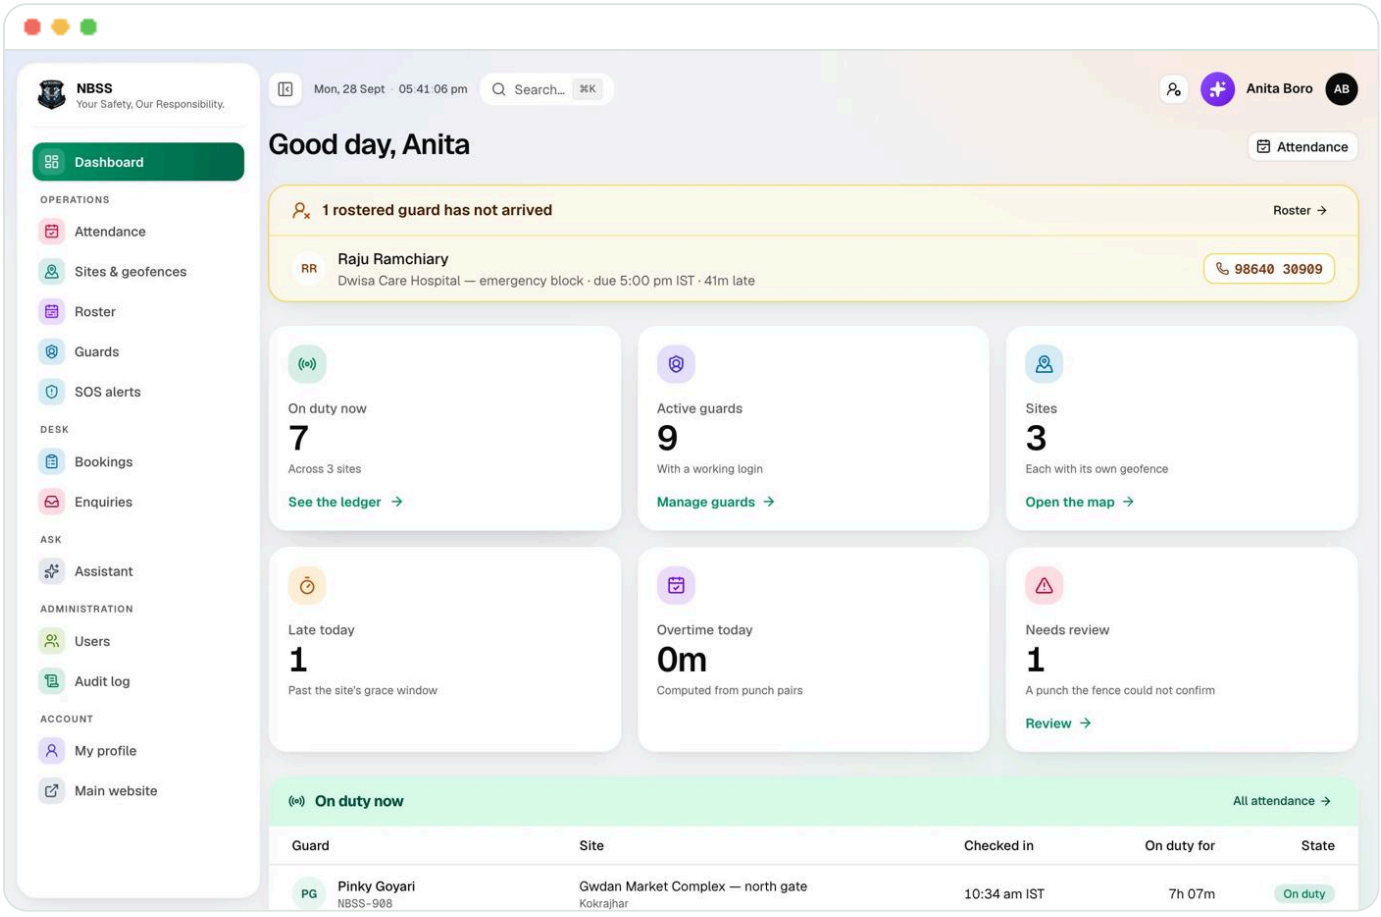

nbss.co.in/console

Start of the day

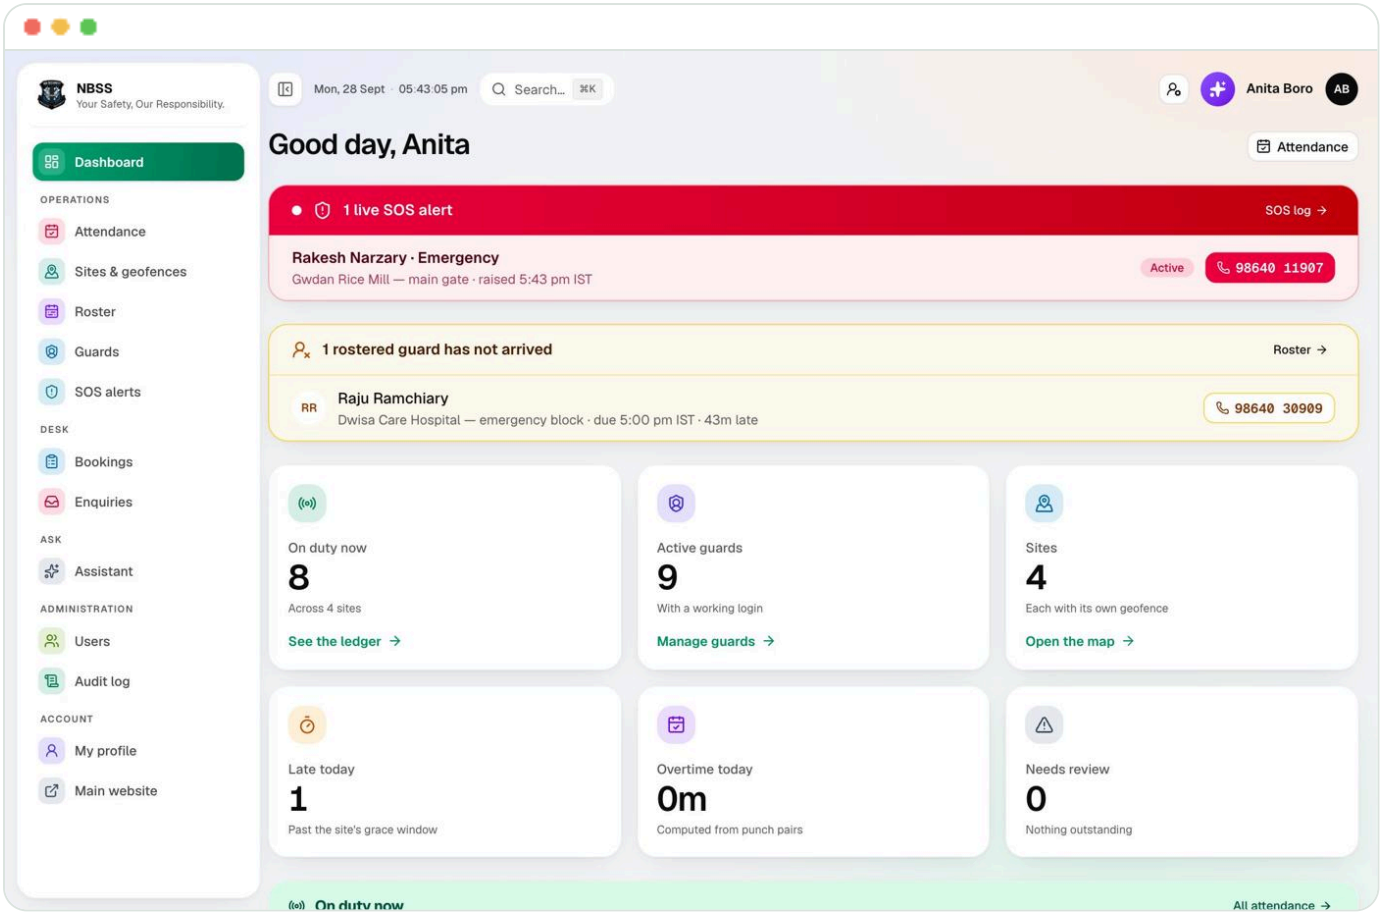

1. **Dashboard**
   On duty now, late today, needs review, and any guard who has not arrived.

2. **Live SOS banner**
   A red banner appears with the guard's number to call.

3. **Attendance**
   Every check-in across all sites. Open one to see where the guard stood.

Dashboard

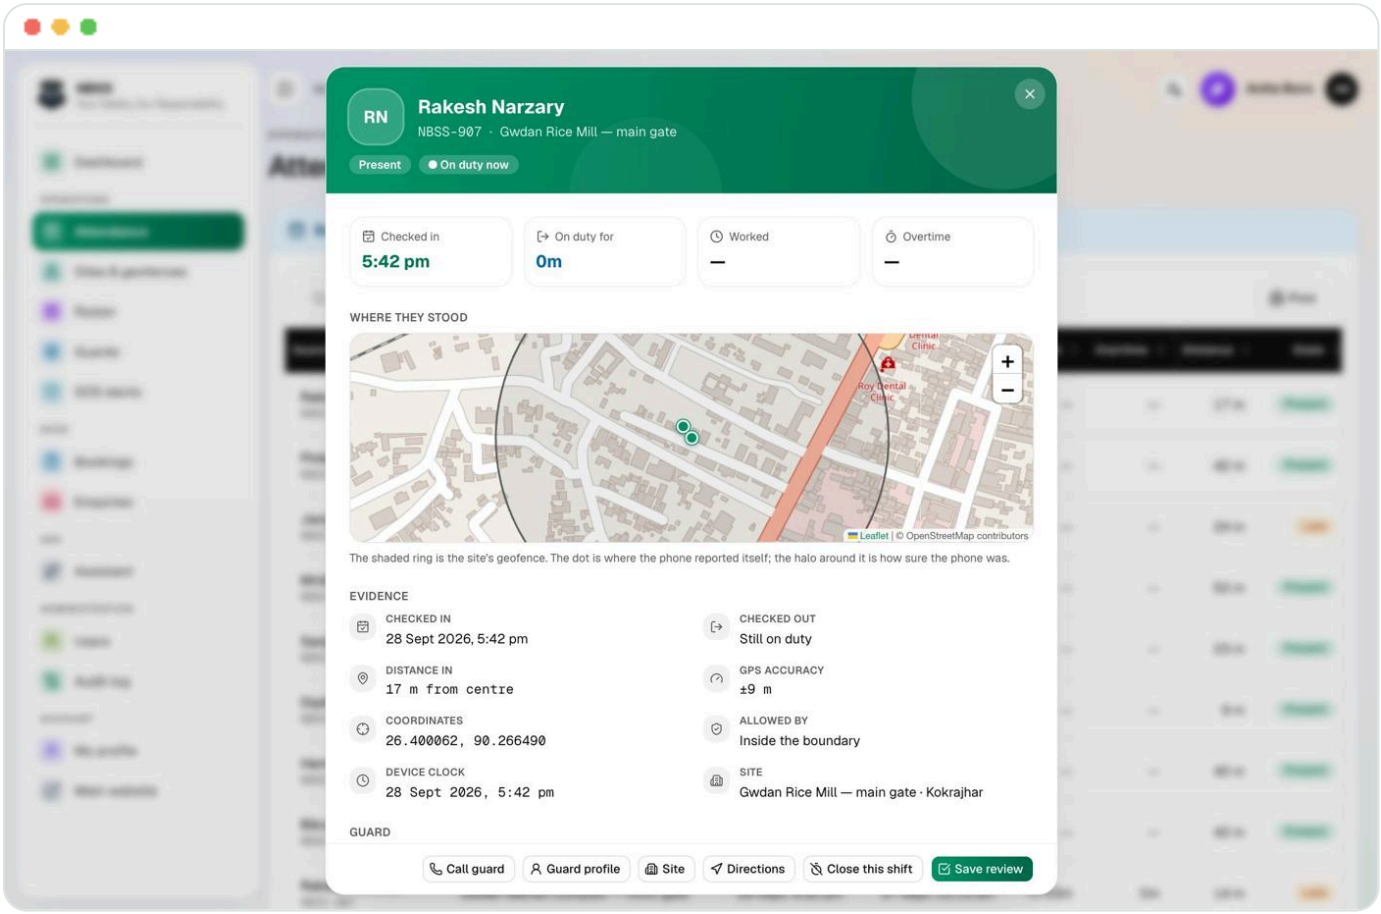

A live SOS on the dashboard

Proof of attendance

1. **Click a row in Attendance**
   The map shows the site's ring and where the phone was.

2. **Read the evidence**
   Distance from the centre, GPS accuracy, coordinates and the phone's clock.

3. **Act on it**
   Call the guard, get directions, close the shift or save a review.

One check-in, with its evidence

Sites and bookings

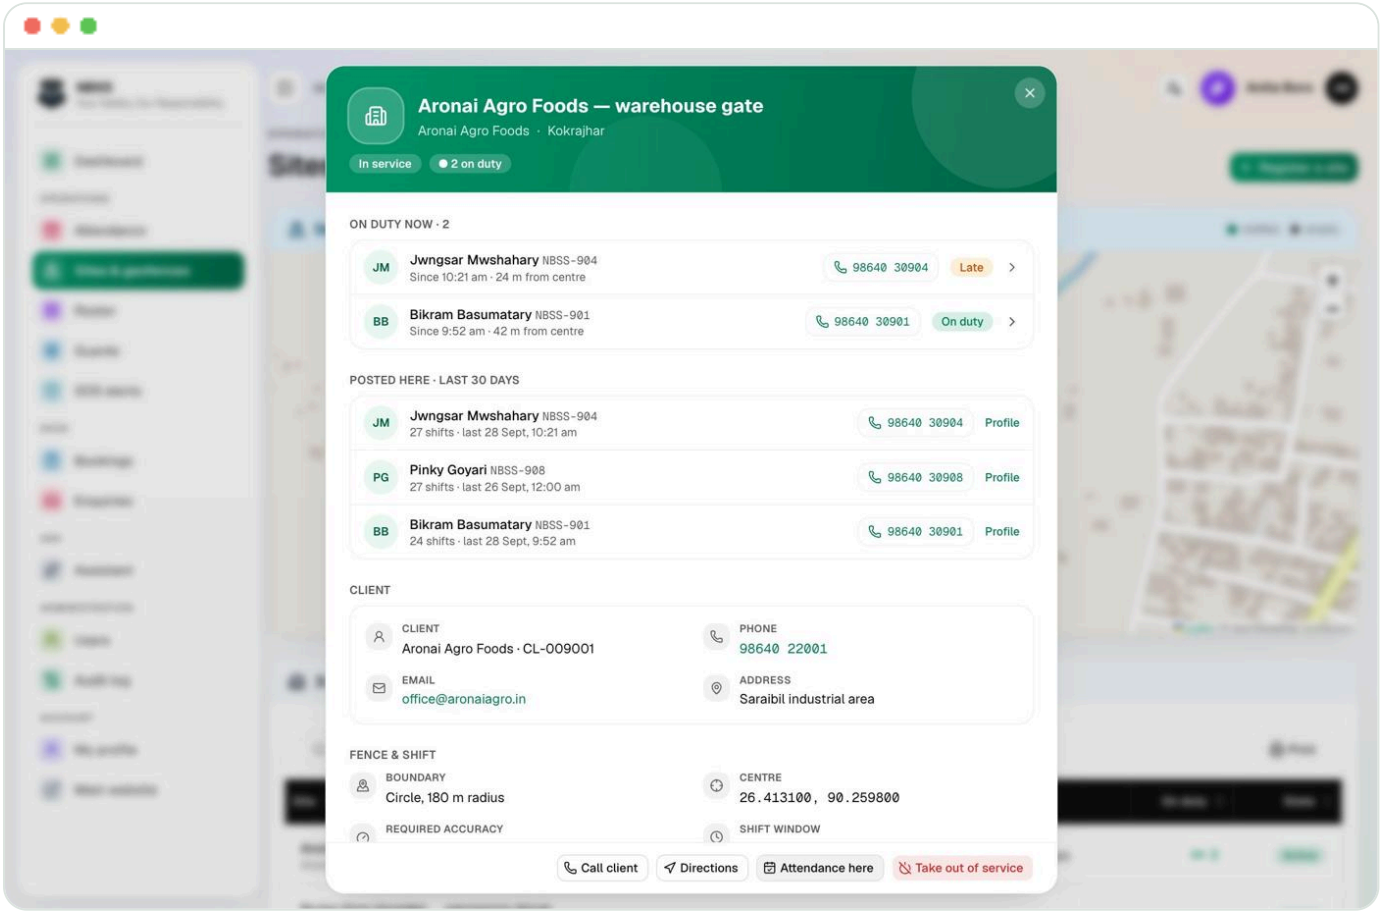

1. **Add a site**
   In Sites & geofences, click the map for the centre and set the radius in metres.

2. **Open a site**
   Who is on duty now with their phones, the client, the fence and past SOS.

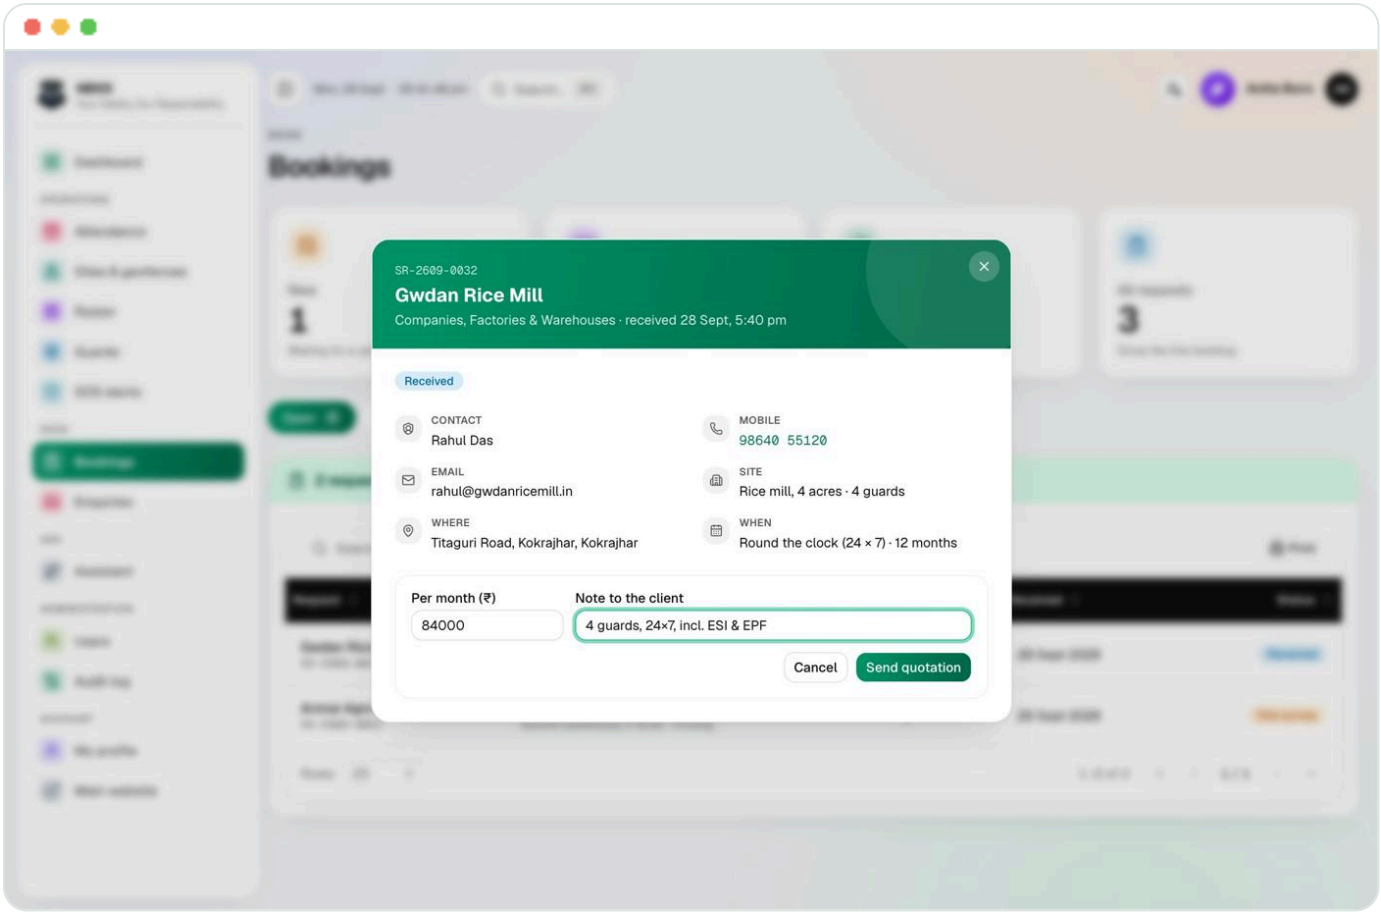

3. **Answer a booking**
   In Bookings, open the request and send a monthly quotation.

4. **Mark it deployed**
   Link the booking to its site once the guards are placed.

5. **People**
   Add guards in Guards and staff in Users. Reset a forgotten PIN on the Guards page.

A site: guards on duty, phones, client, fence

FOR CLIENTS

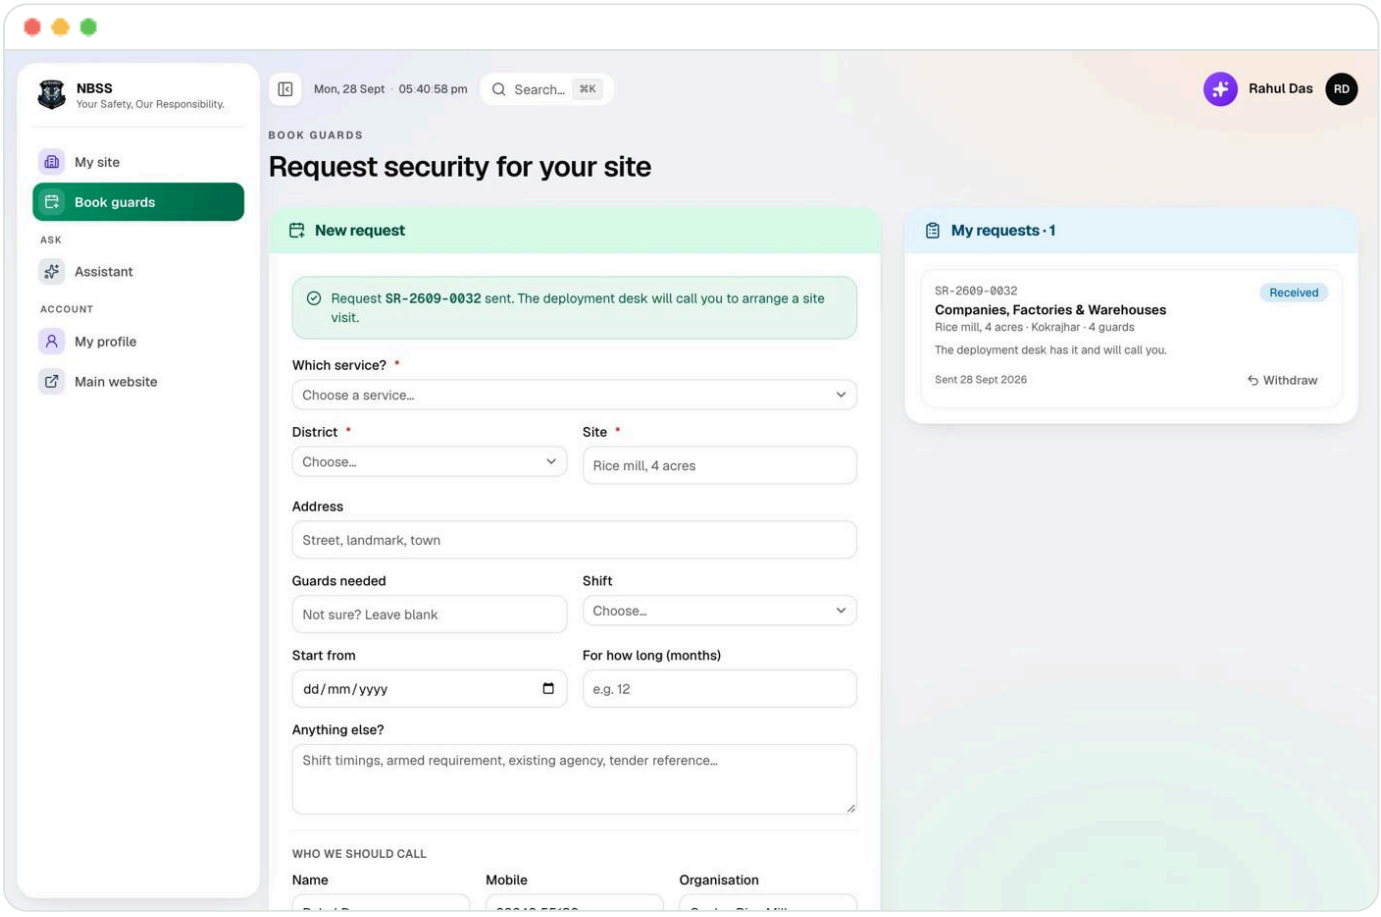

Book guards and watch your gate

Use the website on any computer, or the same account in the app.

nbss.co.in NBSS app

Book

1. **Create an account**
   On the sign-in page: your name, company, phone and email.
2. **Enter the code**
   A 6-digit code arrives by email. There is no password to remember.
3. **Request guards**
   The service, the site, how many guards, the shift and start date.
4. **Keep the reference**
   Each request gets one, like `SR-2026-0032`. The quote appears in your account.

Request security for your site

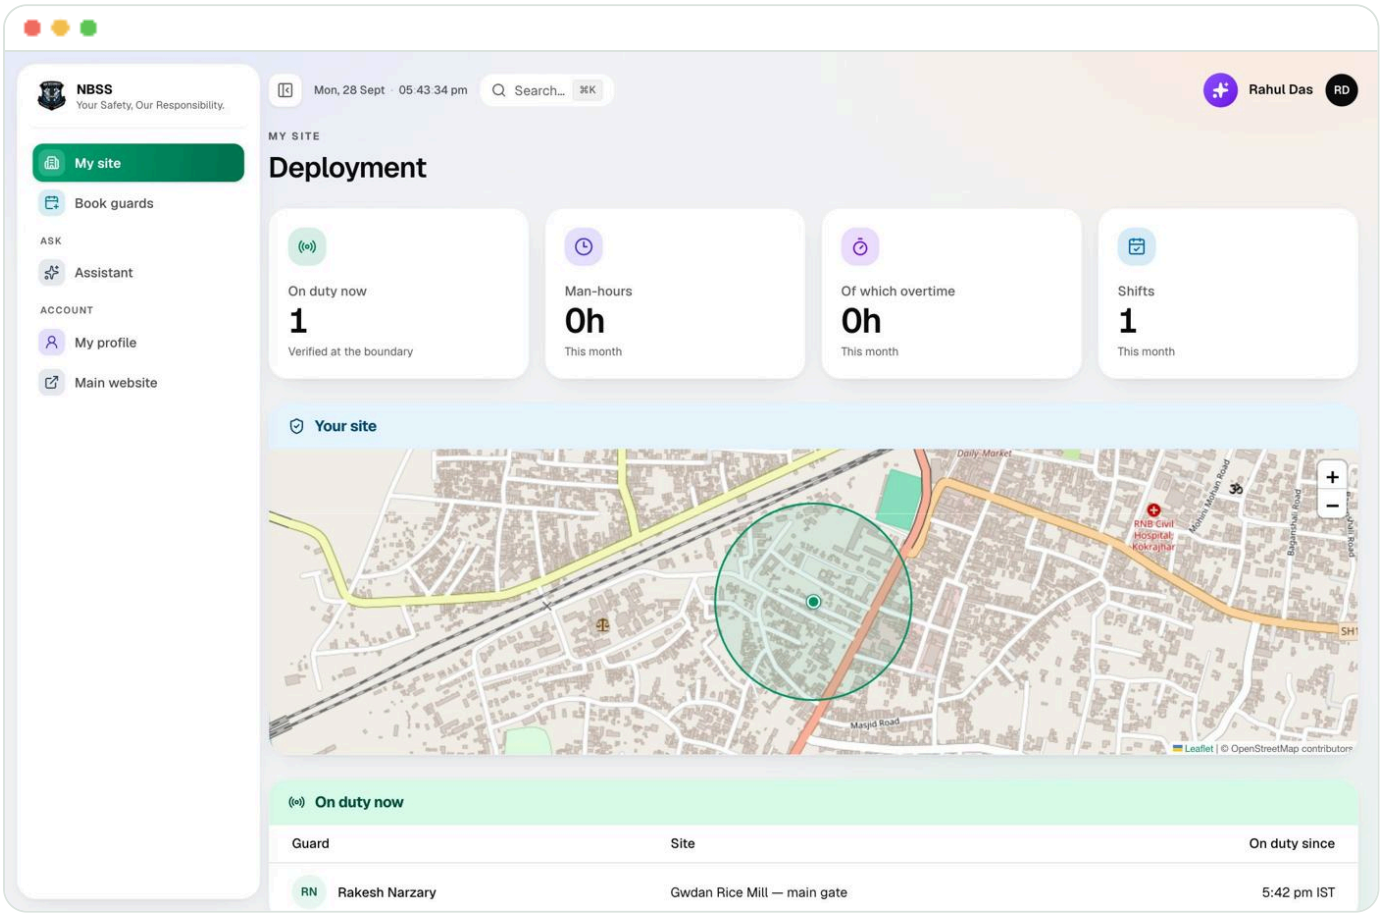

Watch your site

1. **Open My site**
   Who is on duty now, each one checked in inside your boundary.

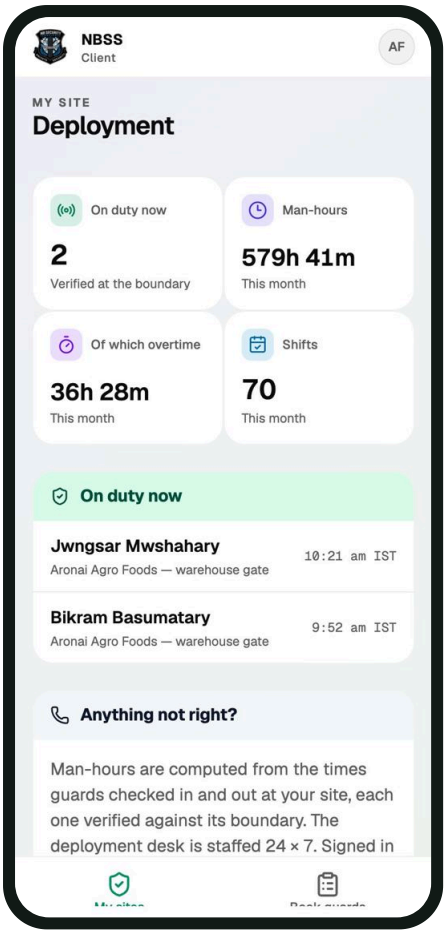

2. **Tap a guard**
   See when they arrived and how far from the centre.

3. **Hours this month**
   Man-hours and overtime, worked out from the check-ins.

PRIVATE You only ever see your own sites and your own guards.

My site on the website

The same in the app

Quick reference

DEPLOYMENT DESK · 24 × 7

+91 70020 71628

Check in

Only inside the site's ring. The button turns green when you are there.

SOS

Hold the red button for 3 seconds. Help is alerted at once.

Wrong site

Allowed, but it waits for a supervisor to approve.

Weak GPS

Step outside for a few seconds, then check again.

Location

Shared only while on duty. It stops at check-out.

Phone off or no signal

The office sees the guard go quiet in minutes, and out of contact after about 16.

Forgot PIN

Ask the office. They reset it on the Guards page.

Office hours

Mon–Sat, 9:00 AM – 6:00 PM IST. The desk never closes.
